dered out.

U. S. Reclamation Attorney Here

C. T. Byrd, attorney for the
U. S. reclamation service, with
headquarters in Denver, was in
Holbrook several days this week
collecting data for use in re-
clamation service work.

Interviewed by the editor of
The News in reference to his
investigations, Mr. Byrd said:

"The government is prepar-
ing to do considerable work on
the Colorado river and its tribu-
taries in the way of building re-
servoirs to conserve the surplus
and flood waters of these streams.
It is believed by those at the head
of the reclamation service that
by doing this it can to some ex-
tent prevent the disastrous floods
that have done so much damage
in the lower California valleys
in the past few years and that
the waters stored can be used
for irrigation purposes, thus
serving a double purpose. The
present investigation takes in
the states of Colorado, Wyoming,
Utah, New Mexico, Arizona, the
Imperial valley in California and
a portion of Nevada."

Mr. Byrd stated that Arizona
has been very lax in water legis-
lation. No laws have been en-
acted to expedite the adjudica-
tion of water-filings; the flow of
the Little Colorado river has
been several times covered by
filings, but only a small part of
this flow is being actually used.
Much of this water was filed on
by large corporations, which pro-
bably will never use it, and laws
are needed to force these cor-
porations to relinquish their
rights or put the water in use on
their lands.

Mr. Byrd left Holbrook Tues-
day for St. Johns where he will
pursue his investigations for a
few days, and will then go to
Flagstaff.

Newspapers From Distant Lands

The Chamberlain Medicine
Company, Des Moines, Iowa,
manufacturers of Chamberlain's
Cough Remedy, advertise not
only in this country but in fore-
ign lands. A copy of each issue
of every newspaper containing
their advertisements is sent to
the office of the Chamberlain
Medicine Company as a proof of
the insertion of the advertise-
ment. Some of the papers bear
names of places, which require
one to recall forgotten geography
or refer to the atlas to locate.
Some of them are particularly
curious as they are published in
the vernacular or native lan-
guages which might be likened to
the carefully written notes of a
shorthand writer.

The News received this week
a bundle of these foreign news-
papers from the Chamberlain
company and to an American
newspaper man it is interesting
to note the manner in which the
colonial English newspapers are
made up. They still cling to the
methods which were practiced
in this country fifty years ago,
the advertisements being upon
the first few pages, followed
generally by the heavy editorials,
then a few meager cable and
telegraphic items, afterwards
the local news. The local
news consists principally of the
proceedings of the legislative
bodies, town council, school
board, etc. Contributions by the
readers are numerous and lengthy.

The editorials are generally of
a more dignified and serious
nature than American produc-
tions. The daily papers devote
more space to book reviews and
detailed reports of scientific pro-
gress than American newspapers
do. Humor is not so noticeable
and cartoons are used more
rarely than with us.

Cattlegrowers Meeting

A meeting of the Navajo-
Apache Cattlegrowers associa-
tion was held in the school house
at St. Joseph last Saturday after-
noon. J. E. Richards, vicepres-
ident of the association, presided
at the meeting in the absence of

the president, James Donohoe.

Minutes of the preceding meet-
ing were read by the secretary,
Judge D. J. Thomas, and were
approved by the association.
Then followed a general discus-
sion of various subjects pertain-
ing to the cattle business. An
adjournment was then had to
July 1, upon which date the as-
sociation will meet in the court-
room in Holbrook.

Among those present were:
J. E. Richards, Hyrum Richards,
A. B. Randall, D. J. Thomas,
Geo. W. Hennessey, Ed. Hennes-
sey, Dick Grigsby, Lew H.
Mickey, A. E. Henning, Ed
Howell, F. V. Barber, J. E.
Walker and the editor of The
News.

Fatal Automobile Accident

Theodore Lopez, a well known
citizen of Apache county, was
instantly killed in an automobile
accident between Concho and St.
Johns last Saturday night. J.
H. Greer, who was driving the
car, escaped with a few slight
bruises, but J. S. Barlow, an
engineer in charge of the work
now being done in Apache coun-
ty by the state, who was the
other occupant of the car, suffered
a broken shoulder blade.

Detailed particulars of the ac-
cident have been difficult to ob-
tain, but it is learned that the
automobile was a Ford touring
car and belonged to the county;
it was being driven by Greer on
county business, and that the
cause of the accident was the
breaking of the rear axle. Lopez
was riding in the rear seat, and
when the axle broke the car
turned over, throwing him out
on his head. Death was instan-
taneous.

A coroner's jury empanelled in
St. Johns Monday returned a ver-
dict that the accident was un-
avoidable and the driver was
blameless.

The deceased leaves a wife,
the daughter of Alfred Ruiz, an
attorney of Gallup.

Large Disbursements by Church

Disbursements by the Mormon
church amounting to almost
\$17,000,000 in the last fourteen
years are shown by a financial
statement presented to the
Eighty-ninth General Conference
of the church held in Salt Lake
City last week by its president,
Joseph F. Smith.

The report shows that in the
period mentioned the church ex-
pended \$3,714,455 for church
schools, \$2,625,328 for operation
and maintenance of missions in
the United States and Europe,
\$2,007,733 for meeting houses
and amusement halls, \$3,279,900
for the support of the poor, \$1,-
555,000 for real estate surround-
ing the Mormon Temple in Salt Lake
City, \$1,169,499 for operation
and maintenance of the Mormon
temples, \$1,200,000 to pay off
bonded indebtedness of the church,
\$292,795 for mission houses in the
United States, \$266,236 for mis-
sion houses in Europe, \$78,000
for agricultural colleges and
meeting houses in New Zealand
and Samoa, \$600,000 for equip-
ment of the church hospital in
Salt Lake City and \$161,000 for
purchase of the farm where
Joseph Smith, founder of the
church was born at Palmyra, N.
Y., the jail where he was killed
at Carthage, Ill., a monument to
him at Palmyra, and property at
Independence, Missouri.

A net increase of 187,733 in the
membership of the church and
the erection of 465 meeting
houses for the period are shown
in the report.

"The tithes of the church have
not stuck to my hands nor to the
hands of any of my associates,"
Mr. Smith said in presenting his
report today. This is the second
fiscal statement made public by
the Mormon church, the first
one covering the preceding year,
having been presented at the
conference of the church last
October.

Ling Estate in Sawyer's Hands

Special letters of administra-
tion of the estate of Reese M.
Ling, who died intestate, have
been granted to E. A. Sawyer of
Winslow. Through his attorney,
George J. Stoneman, Mr. Sawyer
petitioned the court to issue the
order permitting him the use of
a sufficient sum of money for
immediate needs. Judge Lyman
granted the petition.

In his petition, Mr. Sawyer set
forth the amount of property

Mr. Ling had in Phoenix, which
consists of a several thousand
dollar bank account, an automo-
bile and office furnishings, a law
library and personal effects. He
states that no will was found,
and that by statements made by
the deceased before his death,
led him to believe there was no
will. He said the property con-
sisted real estate in Prescott,
mining claims, equities, outstand-
ing contracts and debts due the
estate.

The heirs-at law are the widow,
and the three sons, Harry, Perry
and David W. Ling.

Planting Crops Too Early

Farm Advisor Paschall, of Co-
chise-Santa Cruz Counties, re-
ports that farmers in his terri-
tory are showing a tendency to
plant their crops too early this
spring, and that there is danger
of the crops already planted be-
ing killed by frost. Further-
more, the plants do not grow
well during cold weather, and
the early planting does not give
sufficient opportunity to properly
prepare the seed bed. There is
a great scarcity of pure seed of
field crops of the adapted varie-
ties, and farmers are being urged
to plant seedbreeding plots in
order that more pure seed may
be available next year.

Lumber Yard Enlarged

C. A. Carrington, proprietor of
the well known Carbon City Lum-
ber company of this city, is just
now completing improvements on
his new addition to that lumber
yard, which gives this city the
finest and most complete lumber
yards and builders supply house
in the whole southwest.—Gallup
Independent.

Judge Thomas Sells Residences

Mr. and Mrs. F. J. Allison of
Allison, N. M., Monday of this
week purchased two fine resi-
dence properties in this city built
about two years ago by D. J.
Thomas, and which are now oc-
cupied by the Jack Stewart and
W. E. Clarke families.—Gallup
Independent.

Government Crop and Live Stock Report

Washington, D. C., April 7,
1916:—A summary of the April
crop and live stock report for the
State of Arizona and for the
United States, as compiled by
the Bureau of Crop Estimates
(and transmitted through the
Weather Bureau), U. S. Depart-
ment of Agriculture, is as fol-
low:

WHEAT.
